Allowable Subject Matter

1. Claims 5-8 allowed.

The primary reason for allowance of claims 5-6 is the inclusion of a plurality of developing devices being rockable about a rocking center centered on a rotation center of a first developer carrying member which is found in all of claims 5-6, but not disclosed nor suggested by the prior art of record.

The primary reason for allowance of claims 7-8 is the inclusion of an image forming apparatus that can be operated in a first mode in which a developing operation is performed by the use of a first developer carrying member alone without an abutting member, and a second mode in which the developing operation is performed by the use of both the first and second developer carrying members with the abutting member abutting against the image bearing member, which is found in all of claims 7-8, but not disclosed nor suggested by the prior art of record.
